Call to Order and Introductions – TAC Vice Chair Barbara Beatty called the meeting to order and welcomed all present at 2:30 PM. Introductions were made around the room. Les Morrow joined the meeting remotely via Zoom. Upon a motion by Ms. Patton and a second by Mr. Townsend, the TAC unanimously approved Mr. Morrow participating remotely. Vice Chair Beatty reminded members of Ethics Awareness. Ms. Beatty asked if refiling for 2022 was due by April 15, which Mr. Horton confirmed.

Technical Coordinating Committee (TCC) Report – Mr. Horton informed members that all items from the prior TCC meeting had been unanimously recommended to TAC.

Action Items:

- I. **Approval of Minutes** – Ms. Beatty asked members if they had a chance to review the minutes. Upon a motion from Mr. Sigmon and a second by Ms. Patton, the TAC unanimously approved the minutes from their November 19, 2021, meeting.

- II. **2022 Meeting Calendar** – Mr. Horton presented the draft calendar for 2022 meeting dates. Mr. Horton noted most months fell on the fourth Wednesday with the exception of January, November, and December. Mr. Horton explained the unique meeting date for January would allow adoption of local assessments prior to the WPCOG Policy Board meeting, while November and December dates avoided holidays. Upon a motion from Ms. Patton and a second by Mr. Townsend, the TAC unanimously approved the 2022 Meeting Calendar.
- III. **2024-2033 STIP Development Methodology** – Mr. Horton expanded upon last month’s update, where he explained how “committed” projects in the current (2020-2029) STIP now exceeded available funding by \$11 billion. Mr. Horton elaborated that the emerging methodology for “re-evaluation” projects appeared to give priority to P3 before P4 then P5. Mr. Horton showed how few of the projects at risk of losing their funding fell within P3. Mr. Horton explained that this “oldest first” methodology would likely result in losing funding for most of the “re-evaluation” projects. Mr. Lail clarified that the Board of Transportation had not yet received an official recommendation on the methodology, and that it could be until Spring 2022 before a decision were made. Mr. Lail shared that he has pushed for more flexibility and noted re-scoping or phasing NC 150 as an example. Mr. Starr asked about process to make a funding swap recommendation, and Ms. Beatty asked about the timing. Ms. Cook replied that such discussions may not happen until the draft STIP is released in late 2022. Mr. Starr shared concern over publishing the STIP before swap discussions. Mr. Horton reminded everyone to complete the 2050 MTP survey by December 31. No action was required for this information item.

NCDOT Update –

- **NC Board of Transportation** – Mr. Lail reiterated from Item III that the STIP was about \$11 billion short, which includes a new 3% inflation factor for five years. Mr. Lail commented that changes in terminology, such as “delivery” and “developmental,” instead of “committed” and “non-committed” could help better communicate the evolving status of programmed projects. Mr. Lail also encouraged TAC members to participate in the Transportation Summit in Raleigh on January 19 and 20, 2022.
- **Division 11** – Mr. Sizemore shared a projects update.
- **Division 12** – Mr. Stafford presented a projects update. Ms. Beatty shared concerns on Balls Creek Rd at NC 16.
- **Division 13** – Ms. Hannah Cook presented an update, including the status of Exit 112 as 95% complete.
- **NCDOT-TPD** – Ms. Pam Cook shared her update via the TPD Newsletter.

Public comments or announcements: None.

Adjournment – As there was no other business, Vice Chair Beatty adjourned the TAC at 3:20 PM. The next meeting is scheduled for January 19, 2021 at 2:30 PM

Respectfully Submitted,

Barbara Beatty, MPO/TAC Vice Chair

Brian Horton, TAC Secretary

**REQUEST FOR ACTION
TRANSPORTATION ADVISORY COMMITTEE**

MEETING DATE: January 19, 2022

SUBJECT: FY 2023 Transportation Assessments for MPO Work Program

PRESENTER: Brian Horton

ATTACHMENTS: 1. NCDOT Transportation Planning Division Letter
2. NCDOT Integrated Mobility Division Letter
3. MPO Assessments Table by Area Local Government

SUMMARY OF REQUEST:

WPCOG serves as the lead planning agency for the Greater Hickory MPO. Each year, the WPCOG assesses dues to its local governments. The Policy Board of the WPCOG approves the overall dues, but the Transportation Advisory Committee has purview over the portion used to fulfill the required local match for Federal transportation funding.

Per the attached NCDOT-TPD letter, PL funding is decreasing from \$362,691 to \$351,800. Other Highway program funding will remain at the same levels, including \$80,000 in Statewide Planning Research (SPR) and \$100,000 in Surface Transportation Block Grant – Direct Attributable (STBG-DA) funding.

Staff proposes to manage this slight grant decrease by adjusting our administrative work budget. This will retain all other work programs at current levels, in order to update to the 2050 Metropolitan Transportation Plan (MTP). 2022-2023 will continue to be a work-intensive year for the 2050 update, though shifting from data collection to plan writing.

Per the attached NCDOT-IMD letter, 5303 funding is increasing from \$53,800 to \$109,942. Other 5307 funding administered by WPRTA would decrease from \$83,000 to \$68,000. The overall increase in transit planning funding will help support an ambitious 2022-2023 that will support service changes in Burke and Catawba counties, expansion plans in Caldwell County, and planning assistance in all four counties.

Based on the direction of the TCC and TAC in recent years, staff also proposes to utilize the annually estimated population to apportion the assessments. The attached table shows a comparison of last year and this year to show how the collective transportation assessments are increasing by local government.

BOARD ACTION REQUESTED: Staff requests TAC to review and approve the FY 2023 MPO assessments.

Suggested Motion: *I move that the TAC approve the assessments as presented.*

STATE OF NORTH CAROLINA

Subject: Greater Hickory MPO, FY 2023 PL Work Program Allocation

Dear Mr. Horton:

At this time, TPD does not yet know when the FY 22/23 funds will be available and the exact amount of funding. Therefore, TPD will assume the same allocation as FY22 providing an available amount of \$5,902,215. We further estimate an additional amount available due to closure of FY20 accounts of \$2,016,630.

For FY23, the MPO is estimated to receive a yearly allocation of \$351,800 in Federal PL funds.

80% Federal funds	20% local match	Total work plan Federal PL + local match for PL funds *
\$351,800	\$87,950	\$439,750

(*Total does not include other sources of Federal, State, or local funding).

If the MPO plans to program any STBG-DA funds for planning, you should coordinate with your appropriate TIP regional contact to have it added to the STIP, add it to your work plan and coordinate with your TPD Coordinator to develop a STBG-DA funding agreement. Please copy myself and Daryl Vreeland (dvreeland@ncdot.gov) with this amount.

For auditing purposes, you should include the program name (Metropolitan Planning / PL 104(f) funds) and the CFDA Number (20.205-5) on your Schedule of Expenditures for Federal and State Awards. FY23 WBS and PO numbers will be transmitted in the future.

Your Draft (U)PWP for FY 2023 will be due on February 28, 2022 and your approved PWP should be submitted by May 10, 2022 online in .pdf format and include the cover letter, adoption resolution, summary budget table, and an item by item task description. The MPO is also required to complete an annual certification prior to the Department approving your FY 2023 PL program. The annual certification resolution (as well as the yearend report) should be uploaded as separate .pdf documents. If you have any questions, please do not hesitate to call or email me: (919) 707-0901, jalavi@ncdot.gov.

Your work plan also includes \$80,000 in Federal SPR funds to cover planning activities in the former RPO areas that have been incorporated into the MPO. These funds should be billed separately from your normal PL invoice.

Sincerely,

Jamal Alavi

December 7, 2021

**To: MPO Lead Planning Agency Contacts
Transit Agency Contacts**

**From: Ryan Brumfield, Director
Integrated Mobility Division**

**Subject: Planning Work Program (PWP) Section 5303 Application for FY2023
Transit Planning Funds**

The Integrated Mobility Division (IMD) is pleased to announce the FY 2023 transit planning allocations for the state's urbanized areas (Attached Allocation Formula Table). These funds are available from the Federal Transit Administration (FTA) under the Metropolitan Planning Program (49 U.S.C. 5305(d)).

The total amount of FFY21 (SFY23) 5303 funds available to North Carolina is \$2,302,014. IMD added an additional amount of unobligated funds, \$3,580,285, totaling the available allocation to \$5,882,299. The allocation for each MPO in the Table reflects the amount for the upcoming fiscal year. The goal is to have the 5303 allocations approved at the April 6, 2022, NCDOT Board of Transportation Meeting. There will be a two-year contract to follow.

Draft UPWP/PWPs must be submitted to IMD into the on-line grants module, Enterprise Business Services (EBS), by **January 28, 2022**, for review by IMD and FTA. The Draft UPWP/PWP must include the Funding Sources Table, the FTA Task Narrative Table, a DBE Anticipated Contracting Opportunities form, the Certification of the planning process, and a notation of the MPO's anticipated PWP adoption date. You only need to provide complete information for each item in the FTA Task Narrative Table for Section 5303 and Section 5307 funded planning tasks.

Final UPWP/PWPs with supporting documentation including TAC Resolution should be updated in the on-line grants module, Enterprise Business Services (EBS), on or before **March 15, 2022**. If there were revisions between the Draft and Final UPWP, the Application Budget in EBS must be updated by March 15, 2022, to reflect these changes. Please note, the Integrated Mobility Division will submit the UPWP's for MPO's located in areas over 200,000 in population directly to FTA for approval on March 24, 2022. This change is to consolidate and streamline the UPWP approval process by FTA.

We encourage you to review the instructions and to work with your IMD Regional Grants Specialist. Please contact Pam DiGiovanni at (919) 707-4680 or pmdigiovanni@ncdot.gov if you have any questions.

* Dues for the MPO are based on population figures from the NC Office of State Planning for 2020.

Unified Planning Work Program (UPWP) – Draft FY 2022-2023 Plan Summary

For the full draft plan, visit: <http://www.wpcog.org/transportation-documents>

Purpose

The Unified Planning Work Program (UPWP) outlines transportation planning tasks to be conducted during the fiscal year. The UPWP sets the budget for these items and identifies the funding sources. MPO staff is responsible for ensuring completion of the planning tasks identified in the UPWP.

Federal Requirements

The new Infrastructure Investment and Jobs Act (IIJA) continues many planning factors previously in the FAST Act, including added new emphasis on equity and resiliency. This is achieved through a Continuing, Cooperative, and Comprehensive (3-C) transportation planning process that results in a long-range plan and short-range program of projects. The Greater Hickory Metropolitan Planning Organization (MPO) is required to develop and update a long-range Metropolitan Transportation Plan (MTP) and a short-range Transportation Improvement Program (TIP).

Planning Considerations

Major components that feed into the long-range plan (MTP) and short-range program (TIP) include:

- Federal Planning Factors
- Travel Demand Model
- Priority Needs List and Scoring Criteria
- Transportation Management Area (TMA)
- Public Involvement, Title VI, and Environmental Justice

Key Changes from FY 2021-2022 to FY 2022-2023

Various UPWP tasks are proposed to remain the same in response to the slight decrease (-3%) in PL funds, except Administration (-13%) and overall transit planning tasks (+37%). Transit-related UPWP tasks are proposed to increase in response to the significant 5303 funding increase (104%) offset by a recommended decrease (-18%) in administered 5307 funds.

- Administration – from \$107,114 to \$93,500 (-13%)
- Transit Planning – from \$120,200 to \$164,342 (+37%)

2050 Plan Survey Results

Transportation Advisory Committee
January 19, 2022

Metropolitan Transportation Plan (MTP)

- Update of prior 2045 Plan adopted in 2018
- New 2050 Plan to be completed by 2023
- 2021 Launch
- Values Survey

The illustration shows a vibrant community scene with people of various ages and abilities. A person in a wheelchair is pushing a stroller, another is using a cane, and a child is on a bicycle. A green bus and a blue car are on the road. In the background, there are colorful houses and mountains under a blue sky. A speed limit sign for 25 is visible.

Key Takeaways

- Safety needs for all users consistently top priority
- Other non-safety needs still balanced in ranking and budget priorities
- Combined intersections and upgrades more than widening needs
- Many widening comments actually for turn lanes
- Pedestrian needs higher than bicyclist needs
- Overlapping or corridor comments mostly made along previously identified priority corridors
